PRODUCT DESCRIPTION & TECHNICAL DATA SHEET

SKU: 01120210
Roadworks signage

ORALITE® 5931MDB, 250 mm x 50 m

Characteristics

Execution:	Standard / Schraffiert
:	250 mm
:	50 m

Description

ORALITE® 5931M
Prismatic Construction Grade

Width: 250 mm
Roll length: 50 m

ORALITE® 5931M Prismatic Construction Grade offers excellent reflective properties (RA2, structure C) and is ideal for construction site markings and traffic signs. The film is particularly weather-resistant and guarantees a durability of 5 years in outdoor use. Thanks to its single-layer structure, it protects against dirt accumulation at the edges and ensures excellent adhesion to polyolefin surfaces. Available in a hatched design and printable on request.

Excellent reflective prismatic film: Optimum reflective properties in accordance with reflection class RA2, structure C
Certified quality: The film complies with EN 12899-1, and the white/red colour is also BASt-certified
Dirt-repellent structure: Single-layer structure to protect against dirt accumulation at the edges
Durability and weather resistance: 5-year durability in outdoor use
