Description

Ready-fitted, tension-free elements for easy self-assembly in design112 quality with rounded corners and no sharp edges on the surfaces, for minimal contact area and maximum service life.

Our lettering sets are tailored to the respective vehicle type and adapted to the contours and creases of the corresponding vehicle. The individual, tension-free 3D surface elements fit exactly onto the corresponding vehicle part, eliminating the need for tedious trimming or even cutting into the paintwork and ensuring easy self-assembly.
