Van

MB Sprinter, flat roof, estate, 2018/06 - | Rear warning marking set red/white

Characteristics

Manufacturer:	Mercedes-Benz
Type:	Sprinter, W907 Sprinter, W910
Year of construction:	2018/06 -
Rear:	rear doors
Roof shape:	flat roof
Glazing:	station wagon
Scope of parts:	2 parts
Main category:	rear warning marking kits
Model:	Sprinter

Description

Original design30710 rear warning marking set in accordance with DIN 30710 for the rear area in red/white, for self-assembly.

Ready-fitted, tension-free elements for easier self-assembly in design112 quality with rounded corners and no sharp edges on the surfaces, for minimal contact area and maximum service life.

Design/foil

Red/white: *design30710 warning marking red/white* - Oralite 5921 M - Microprismatic warning marking red/white in accordance with DIN 30710 for fixed structures

Information on fit

For technical reasons, there are slight differences in fit at the transitions of the warning bars over vehicle edges and beads. This is hardly noticeable at a normal viewing distance of 5 m or more, therefore does not impair the warning effect and does not constitute grounds for complaint. The starting point of the strip pattern may differ slightly from the illustrations. However, this has no relevance for approval and/or safety.

We expressly reserve the right to make changes in the interest of technical progress, which may be made without prior notice.

Original design112 rear warning marking kit in accordance with DIN 14502-3 for the rear area in red/yellow or red/white, for self-assembly.

Ready-fitted, tension-free elements for easy self-assembly in design112 quality with rounded corners and no sharp edges on the surfaces, for minimal contact area and maximum service life.

Design/foil

Red/yellow: *design112 warning marking red/yellow* - Oralite Daybright Chevron - Daylight warning marking red/yellow in accordance with DIN 14502-3 recommendation for permanent structures (special approval required)

Red/white: *design112 warning marking red/white* - Oralite 5921 M - Microprismatic warning marking red/white in accordance with DIN 30710 for fixed structures
