Warning markings for tail lifts

Oralite set - warning markings for tail lifts/tailgate lifts in accordance with StVZO §53b (5) in red/white

Characteristics

Description

Set of warning markings for tail lifts - truck flags in red/white

Tail lifts / tailgate lifts on vehicles must be marked with yellow flashing lights and rear-facing, retro-reflective red and white warning markings during operation in accordance with § 53 b StVZO.

Our truck flags are made of flexible and robust reflective material, which guarantees above-average durability and maximum visibility from a distance in all weather conditions. Easy to install using the system rails supplied.

Format: 250 x 400 mm

Set consisting of: Warning mark flags, 1 each pointing left and right, and a plastic interchangeable holder that is permanently attached to the tail lift (tailgate).
