Description

design112 BF3/BF3plus lettering set for heavy goods transport - complete set for vehicle marking

The design112 lettering set for BF3 and BF3plus heavy transport escort vehicles is the ideal solution for legally compliant, durable and professional vehicle lettering.

The complete set contains all the necessary lettering and marking elements for easy self-assembly in accordance with Traffic Bulletin B3422 (as of 2015).

Product description

The high-quality BF3/BF3plus marking set enables quick and precise application of rear lettering and meets all legal requirements. All elements are cut to size and ready for installation and are made of durable, retro-reflective materials in accordance with ECE104.

Scope of delivery as shown in the illustration, consisting of:

- BF3/BF3plus rear warning marking set, red/white, 180 mm grid
- White surface film for a clean, uniform appearance
- Retroreflective lettering block "Heavy Transport" in accordance with ECE104

- Circumferential contour marking in red, ECE104-compliant, square gaps 50 x 50 mm

Advantages at a glance

- Precisely fitting, ready-to-install elements – no cutting required
- Complies with traffic bulletin B3422 (as of 2015) and ECE104
- Excellent visibility day and night thanks to retro-reflective materials
- Easy self-assembly thanks to optimal fit
- Quality and design by design112 – Made in Germany

Area of application

For BF3 and BF3plus escort vehicles in heavy transport, for regulatory marking and increased road safety.
