Warning markings for containers in accordance with DIN 67520

Set of 8 warning markings for containers - Oralite 5951

Characteristics

Description

Set of 8 Orafol Oralite 5951 warning markings for containers in accordance with DIN 67520 Part 2 / DIN 6171 Part 1

For safety, 4 pieces pointing to the right and 4 pieces pointing to the left

The marking of containers and swap bodies parked in public traffic areas is regulated by §32 (1) StVO (German Road Traffic Regulations). The traffic obstacle must be illuminated with its own light source or made visible by other lighting equipment, such as the warning markings we offer as container sets.

Thanks to Orafol's microprismatic technology, this film does not require edge sealing and is more flexible.

One application package consists of one right-facing and one left-facing marking!

Standard format: 141 x 705 mm

Scope: Set of 8 – 4 right-facing and 4 left-facing

Colours: white/red
