design112 Professional adhesive fluid 1,000 ml

Characteristics

Description

design112 adhesive fluid

The ideal solution for bubble-free, clean and professional film adhesion on almost all surfaces.

Whether warning markings, contour markings or vehicle lettering – our adhesive fluid is specially designed for all adhesive films supplied by design112 and ensures maximum adhesion while protecting the adhesive properties.

Your advantages at a glance:

- Perfect adhesion results without bubbles
- Optimal positioning of film parts during installation
- No more experimenting with detergent mixtures
- No risk of incorrect dosage or unsuitable agents
- Easy to use thanks to practical 1,000 ml spray bottle

Rely on professional quality – with design112 professional adhesive fluid, film installation is easy and reliable.
