SKU: 09000095
Vehicle identification lights

design112 fuse box

Characteristics

Description

design112 **safetybox**

Perfectly organised for the temporary marking of vehicles which, in accordance with §35 (6) StVO, temporarily claim special rights.

The design112 safety box contains **magnetic warning markings in accordance with DIN 30710** for the front and rear, an **LED magnetic warning light** and a **magnetic "construction site vehicle" sign**. The practical Sortimo L-Boxx is printed with a **retro-reflective warning marking design** for use as additional safety protection. A metal bracket inside the box ensures easy storage of the magnetic warning light and the connection cable. Additional space provides the opportunity to store your personal equipment.

Scope of delivery:

- 1x Sortimo L-Boxx 238 including retro-reflective warning marking design
- 2x sets of magnetic warning markings 564 x 141 mm, left and right facing
- 1x magnetic sign for construction site vehicles in 300 x 50 mm format
- 1x GyroLED M80 magnetic warning light with cigarette lighter connection
